### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or suggest the combination of the claimed method for controlling manufacture of a sheet material as been argued and explained on the filed appeal brief of 08/03/2007. In particular, the prior art of record fails to disclose among other steps the step of controlling conveyance or manufacture of the sheets based on results of detection by the sheet detectors, wherein the controlling comprises stopping conveyance or manufacture of the sheets or of processed products of sheets if passage of the sheets or the processed products of the sheets is not detected by a sheet detector at one of the exit sides of a branch path towards which the sheets or the processed products of the sheets are conveyed , after a predetermined time after another sheet detector at the entrance side of the branch path detects passage of the sheets or the processed products of the sheets.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
